To Whom It May Concern:

My name is Otto Portmann, D.C. I have been a chiropractor in private practice for the past forty years. I have attended three NMT seminars, where NMT: The Feinberg Technique was taught by the use of the NMT seminar manual. I have personally utilized this method and find the teachings and protocols useful in treating patients.

I offer the following case studies:

I treated an 84 year old man with a left hip injury. Through the use of NMT, as taught in the NMT seminars, he had total remission of his symptoms.

I have also used NMT in conjunction with patients involved in an auto accident. Again they responded to care quickly and had total remission of their symptoms. One patient also experienced a remission of previous breathing complaints.

NMT: The Feinberg Technique, effectively teaches a useful method of neuromodulation therapy that is useful in the health care field. I believe that the system works as disclosed.

Sincerely,

A handwritten signature in black ink, consisting of a large, stylized 'O' followed by a long horizontal line that ends in a small, decorative flourish.

Otto E. Portmann, D.C.
